RECENT DEATHS

McCauley.
Mrs. Mary Conway McCauley, who was undoubtedly the oldest woman in St. Johnsbury, died at eight o'clock Monday morning from old age at the home of her daughter, Mrs. Mary Ann Judge, with whom she had resided for several years. She did not know exactly when she was born, in the south of Ireland, but by comparing her age with that of various friends and relatives she and her family felt sure that she was at least 105 years old. She certainly looked many years older than any other person in town. Until a little over two years ago when she suffered a bad fall, she enjoyed the best of health and was able to help with the house work and sew and knit, particularly the latter of which she was fond of. Coming from Ireland to America when a young woman she lived in Canada, at North Bedford and Black Lake, until she came here eight years ago. Her husband, Patrick McCauley, died in Canada 16 years ago at the age of 81 years. These daughters survive her: Mrs. Mary Ann Judge of St. Johnsbury, Mrs. Sarah Warren of Portland, Me., and Mrs. Charles Gadsden of Washington, D. C., and 11 grandchildren and one great grandchild. The funeral will be held this morning from St. Aloysius church.

She was the only daughter of Frank E. and Sarah E. Lucas, formerly of Lowell, Mass. Besides her parents, she leaves a younger brother, Frank, and a large circle of relatives and friends to mourn her loss. Sadie was born in Lowell, Mass., August 11, 1893, and spent her early school days at Varnum school, Centerville, Lowell.

She moved to St. Johnsbury with her parents in July 1906, and continued her education in the public schools of this place. At the time of her death she had advanced to the third year of her school life in the St. Johnsbury Academy. She seems to have many friends here, a bright, cheerful, and promising student, beloved by all, and possessing a noble Christian character, her parents and friends have the blessed comfort of knowing that she died in Christ. Friends and relatives take notice that her parents extend to all an invitation to attend the funeral, which is to be held at the home of the deceased, Thursday afternoon at two o'clock.

The casket was covered with flowers and surrounded by banks of ferns and greenery. The remains were taken to St. Johnsbury for burial. The deceased was born in Irasburg, March 28, 1841, the daughter of Richard Haines, a man of sterling character and strong principles who gave his children all the educational advantages of the day, often driving many miles through deep and drifting snow to the old fashioned singing school. Mrs. Gordon began school teaching at the early age of 13, spending a number of years teaching and attending school at Morrisville Academy where she afterward taught. She was gifted with a rich contralto voice and no convention in the northern part of Vermont or New Hampshire was complete without her. She was a writer and poet of some note. She began the Christian life in earliest years, being a member of the North Congregational church in St. Johnsbury for many years and taking a letter from that church to the Congregational church in Bristol. She was married in the year 1865 to Charles E. Doying of revolutionary stock by whom she had nine children, seven living in childhood. The two daughters living are Mrs. Henry Brigham Sibley, of Bristol, N. H., and Mrs. Louise D. Bennett, a trained nurse of Concord, N. H. She leaves also five grandchildren. Doubles the Number of Eggs.

To be successful with poultry requires a great deal more careful attention than many are apt to think. The house should be large and warm. The fowls should have plenty of exercise; but more than that, the fowls should be given as food what their nature demands and what, for all other reasons, they could produce for themselves. "Page's Perfection Poultry Food" contains these ingredients in a carefully compounded ratio. A. A. Olmstead of South Newbury, Vt., has the following to say in regard to this food: "After several years' experience with 'Perfection Poultry Food' with such good results that we thought it a proper thing to tell you. It keeps our hens well and in good laying condition and, we think, doubles the number of eggs. Being in a good condition, lice do not trouble."

If you want to know more about this food and the best ways of using it, write to C. S. Page, Hyde Park, Vt., for his booklet, "Profitable Poultry." It will be sent free, postpaid, to anyone mentioning this paper.
